

Long-Acting PrEP— Proposed Priorities for H2 2024 to H1 2025

	CAB	DVR	LEN
Product (pricing, manufacturing, generics)	Collaborate with ViiV to understand procurement plans, build demand and accelerate generics progress	Collaborate with PopCouncil on price/volume for 2024/25 & plans for local mfg with Kiara; track development of 3-monthly & dual-purpose rings	Engage with Gilead now to encourage continued inclusivity and transparency on pricing and access. Work with six generic manufacturers with haste and in parallel to regulatory submissions.
Regulatory Approval & Normative Guidance	Monitor progress on the need to remove oral CAB development and registration from sublicense agreements	Advocate for additional submission in high-burden countries	Engage with Gilead to ensure accelerated and broad regulatory submissions, along with data to WHO for PW & guideline development. WHO and NRAs to review data ASAP
Planning & Budgeting	Build demand in country and develop long-term demand forecast	Build demand in country and develop long-term demand forecast; understand what data PEPFAR may need to consider programmatic procurement	PEPFAR and the Global Fund to work with other donors and MoH to negotiate price and volume guarantees. MoHs to integrate into national guidelines asap.
Delivery & Supply Chain	Track current implementation studies and share early insights; continue to identify and address evidence gaps	Track current implementation studies and share early insights; continue to identify and address evidence gaps	MoHs, policy makers and donors to collaboratively design a comprehensive introduction strategy to speed up introduction
Stakeholder Engagement	Create collective advocacy strategies, continue to integrate civil society perspectives and support implementation of HIV Prevention Choice Manifesto		Create collective commitment to expedite comprehensive access strategy by engaging in open conversations and engagement in Plan for LEN and upcoming documents
Research	Ensure further studies are planned to research long-term effects, and continue to identify gaps in product introduction by country	Advocate for further research on long-term effects and use in conjunction with other prevention methods; identify timelines for 3-monthly ring introduction	Identify implementation science priorities that can be embedded in programmatic rollout and/or run in parallel in anticipation of approval & recommendations
Monitoring & Evaluation	Continue to coordinate modeling exercises; assess gaps in in product introduction by country. Push to advance a learning agenda for programmatic rollout	Continue to assess gaps in in product introduction by country. Push to advance a learning agenda for programmatic rollout	Anticipate gaps in in product introduction by country; push to advance a learning agenda for programmatic rollout
